

```
C:\WINDOWS\system32\cmd.exe

C:\Documents and Settings\Michael & Tiffany\Desktop>cd\

C:\>chkdsk
The type of the file system is FAT32.
Volume CABAK created 05/02/2000 8:29 PM
Volume Serial Number is 1E3A-0736
Windows is verifying files and folders...
Windows found errors on the disk, but will not fix them
because disk checking was run without the /F (fix) parameter.
\WINDOWS\Prefetch\CMD.EXE-087B4001.pf first allocation unit is not valid. The e
ntry will be truncated.
\WINDOWS\Prefetch\CHKDSK.EXE-2CC4C59D.pf first allocation unit is not valid. Th
e entry will be truncated.
File and folder verification is complete.
Convert lost chains to files (Y/N)?
